SKILLS

- HTML
- CSS
- JAVA SCRIPT
- PYTHON
- DBMS
- C LANGUAGE
- REACT

EDUCATION

BACHELOR IN COMPUTER APPLICATION

Poornima University
PURSUING

SENIOR SECONDARY SCHOOL

National Institute of Open schooling
2022

SECONDARY SCHOOL

Blue Heaven Vidyalaya
2020

EXPERIENCE

Yhills- Internship

May - July 2024

- Gained basic to advance knowledge in python
- Python Developer
- Coder

PROFILE

I am Himank Mathur, currently pursuing a Bachelor of Computer Applications (BCA) from Poornima University. I have a passion for working on dynamic and user-friendly projects. My skill set includes python, HTML, CSS and various web development frameworks. I am eager to apply my knowledge and skills in a professional setting and contribute to innovative projects.

PROJECTS

- Spotify Clone
 - By using HTML, CSS
- Iris Flowers Classification
 - This project deals with classifying the flowers into three species—Virginia, setosa, or versicolor—based on the length and width of the petals and sepals. Using Python.
- Sales Production
 - This project is to build a regression model that can predict the sales of each of these 1559 products for the following year in each of the 10 different BigMart outlets. Using Python.
- Portfolio
 - Developed a responsive portfolio using React to showcase my skills, projects, and certifications. Features include a clean UI with interactive sections for Skills, Education, Projects, highlighting my expertise in web development with HTML, CSS, and React.
